## FRONT-END WEB DEVELOPER

Karachi, Pakistan | 03301800220 | chatoor72@gmail.com

### Objective

I'm passionate about front-end web development, with a focus on creating responsive and user-friendly websites using HTML, CSS, JavaScript, Bootstrap, and jQuery. I have hands-on experience customizing WordPress themes and turning Figma and Photoshop designs into pixel-perfect front-end code. I work closely with back-end developers to ensure smooth integration between the UI and server-side functionality. I prioritize cross-browser compatibility, mobile responsiveness, and writing clean, reusable code that scales well over time. Proud to have earned 1st position in Front-end Development at CONSULNET CORPORATION, showcasing my commitment to learning and growth. I'm always eager to improve my UI/UX design skills and contribute to innovative, impactful web development projects.

### Experience

Prime Logix | Front-End Web Developer 2024 - Current

Working as a Front-End Web Developer at Prime Logix, responsible for developing and maintaining responsive, user-centric websites and web applications. Collaborates with designers to implement visually appealing and functional layouts. Utilizes HTML, CSS, JavaScript, jQuery, PHP, WordPress, and related technologies to write clean, optimized code with cross-browser compatibility. Focuses on enhancing website performance and integrating animations and interactive features. Ensures usability through testing and resolves front-end issues efficiently. Works closely with back-end developers to deliver smooth and seamless web experiences.

CONSULNET COORPORETION | Frontend Development Course JAN 2024 – July 2024

Worked as a Front-End Developer at Consulnet Corporation, responsible for designing and developing responsive, user-friendly websites and web applications. Collaborated closely with design teams to implement visually appealing layouts across all devices. Utilized HTML, CSS, and JavaScript to write clean, efficient code. Focused on optimizing website performance and ensuring cross-browser compatibility. Integrated front-end functionality with back-end systems and resolved issues to maintain a seamless user experience. Achieved first position in the Front-End Development course during this role.
